To Whom It May Concern:

Angela L. Shelton was employed by our law firm on a part-time (almost full-time) basis during the period June through December of 2001, in the summer of 2002 and 2003. During those times Angela performed a variety of functions for us, including typing, receptionist, filing, telecopying and a general range of office work. In addition, during the summer of 2004 she stepped in on an emergency basis to learn and perform on-the-job, the position of real estate settlement processor, including preparation of the settlement statement, transfer and loan documents, and coordination of all parties involved. We found Angela to be pleasant, capable, intelligent, punctual and friendly to her co-workers. I have no reservations about recommending Angela for any employment for which she might be considered.

Very truly yours,
